OpportunityFinder AI

Your future starts here. 🚀

What It Is

OpportunityFinder AI is a mobile app that uses AI to match students with scholarships, study abroad programs, grants, and other educational opportunities based on their interests, goals, and needs. It is built for students from lower-income communities who have big dreams and deserve every chance to reach them.

Our Vision

Every student deserves equal access to opportunity, no matter their financial background. Too many talented students miss out simply because they never knew an opportunity existed.

Your financial situation should not determine how far your dreams can take you.

A Promise of Trust

Every listing links to its official application website, shows eligibility requirements and deadlines clearly, and is checked for accuracy. Our AI helps you discover opportunities but does not guarantee acceptance or funding.
